

# ACM SIGPLAN TASKS

- Creation Of Java
- A Hello World Program
- Perform Algebra in Java
- Data types In Java
- Read "Hello World" Program
- Variables
- Type Conversion
- Operators
- Control Statements
- Program to print add result(Upto 2 Digits Precision)
- Upto 2 Digits Precision
- To Print the month
- Classes and Object
- Functn to print name
- .A program to test scanner class Input operations
- Fibonacci upto n terms
- To Print sum of number until user input -1
- Read about Constructors
- Read about Polymorphism
- Read about Inheritance
- string manipulation
- Program to check palindrome or not
- Patterns
- Convert decimal to binary base
- Read about foreach,return,break
- Print the largest number
- Calculate AP series
- Chef's Problem
- Program to build a clock
- Read about method overriding,super keyword
- Read about interface and packages

**PROJECT:** Gaming Project
